AI-based Online Remote Proctoring Platform that offers an End-to-End, Cost Effective proctoring solution.

NEXT

Record & Review

Image-based

AI-based Intelligence feature to identify exam takers using unfair methods by analyzing user images captured after system configurable time interval

Video-based

AI-based Intelligence feature to identify students who are at risk and need action through analyzing offline videos of exam shared with proctors after exam delivery

Assist Proctor by flagging images with potential malpractice

No face detected in the frame

Multiple faces detected in the frame

Face mismatch with candidate's registered picture

External objects – Books, devices used in the frame

Live Proctoring

Exam monitoring through live streaming video for identifying exam takers using unfair methods, with the option of cloud storage for further processing and validation.

Ensure Integrity of Online Exams with easyProctor

❯ **Augmented Proctoring** empowers live proctors by providing them with a powerful AI engine that auto-screens and flags candidate malpractice and incidents.

❯ **Easy Integration** is enabled by the API-based integration-ready proctoring platform that seamlessly combines with any learning ecosystem.

❯ **Dual-Camera Setup** ensures exam integrity through a Primary Camera (headshot and body language capture and analysis) and a Secondary Camera (monitors candidate's background and environment).

❯ **WCAG AA Compliance** ensures that the platform experience is inclusive by making content accessible to people with disabilities.

❯ **Lockdown Browser** provides a controlled and secured test environment by preventing test-takers from using any external applications except the test-taking application.

❯ **Multilingual Support** makes the test-taking and proctoring experience inclusive by supporting multiple languages, including right-to-left.
