Excelsoft and ASEAMETRICS Partner with the Civil Service Commission of the Philippines to Deliver CSC Civil Service Digital Examination (CSC DeX)

Excelsoft Technologies Limited("Excelsoft Technologies"), in partnership with its Philippine partner **ASEAMETRICS**, will deliver the **Civil Service Commission of the Philippines' Civil Service Digital Examination (CSC DeX)** beginning in 2026, supporting the Commission's nationwide shift to secure, technology-enabled assessments.

The partnership brings together Excelsoft's globally proven **SARAS eAssessment platform** and ASEAMETRICS' deep expertise in public-sector transformation to enable a scalable, cloud-based, and high-integrity examination system for Civil Service Examinations. CSC DeX is designed to complement and progressively replace legacy testing modes, improving accessibility, reliability, and operational efficiency. According to publicly available data from the Philippines Civil Service Commission, recent civil service examinations have seen participation from over 300,000 candidates nationwide. [Source](#)

Powered by Excelsoft's SARAS platform, the solution delivers end-to-end digital assessment capabilities, including secure test creation and delivery, AI-enabled remote and on-site proctoring, real-time monitoring, psychometric analytics, and comprehensive reporting — ensuring fairness, transparency, and examination integrity at scale.

As a direct outcome of this collaboration, ASEAMETRICS will lead the initial rollout of CSC DeX, with the first phase covering up to 50,000 tests, strengthening merit-based recruitment into the Philippine civil service while enhancing the overall candidate experience.

"This partnership reflects our commitment to enabling trusted, future-ready Civil Service Examinations through technology that is secure, inclusive, and scalable. Together with Excelsoft and the Civil Service Commission, we are helping redefine how public-sector talent is assessed in the digital age," said **Liza Manalo-Mapagu**, **Chief Executive Officer, ASEAMETRICS**.

"We are thrilled to partner with ASEAMETRICS on their journey toward digital excellence. Excelsoft's SARAS and easyProctor platform will empower organizations to transform assessment delivery, embrace AI, and improve outcomes for their end customers," said **Ajay Kulkarni, Head of Global Sales, Excelsoft Technologies**.

Implementation is already underway, with phased deployment planned throughout 2026, marking a major milestone in digital assessment for public service in the Philippines.

About ASEAMETRICS

ASEAMETRICS is a consulting and HR technology firm that helps organizations transform people and performance through integrated strategy, analytics, and technology-driven solutions across talent, learning, and organizational development.
