## Q3FY26 FINANCIAL HIGHLIGHTS

## MANAGEMENT COMMENT

“

*“In Q3 FY26, Excelsoft delivered another strong quarter, with revenues growing 29%, driven by continued momentum in Educational Technology Services and increased adoption of our learning and assessment platforms.*

*A key highlight of the quarter was our partnership with AQA, one of the world’s most respected awarding bodies. This collaboration that intends to advance secure, ethical, and human-centered AI models for e-marking of handwritten scripts in high-stakes assessments is progressing well and is expected to contribute meaningfully to the company’s growth. Another milestone is our strategic partnership with the Civil Service Commission of the Philippines where, in collaboration with ASEAMETRICS, Excelsoft will deliver the Civil Service Digital Examination (CSC DeX) beginning in 2026. Powered by our SARAS eAssessment platform, this nationwide initiative will support over 300,000 candidates annually.*

*Alongside these, our focus remains on acquiring new clients across geographies while reinforcing our leadership position in the education technology space.*

*Revenues continue to be export-led, with North America and the UK as core markets, while Asia is emerging as a key growth region. Looking ahead, the accelerating adoption of digital learning, high-stakes testing, and enterprise skilling presents substantial opportunities. With deep domain expertise, strong human capital, and a scalable technology platform, Excelsoft is well positioned to deliver sustainable growth and long-term value”*
