DIGITAL LEARNING AND SKILLS DEVELOPMENT SOLUTIONS

DIGITAL LEARNING

Create learning that works at scale.

Engaging, interactive and measurable digital learning experiences designed around your learners and business goals.

SKILLS DEVELOPMENT

Build the capabilities your workforce needs next.

Move beyond content delivery to skills and capability development aligned with roles, career pathways and evolving workforce needs.

AI-POWERED LEARNING

Build learning faster, smarter with AI.

Our AI-based development approach helps accelerate learning creation while enabling more relevant and personalised learning experiences.

IMMERSIVE LEARNING

Make learning an experience.

Use AR, VR, simulations, 3D and game-based experiences to help learners practise, explore and build confidence in realistic environments.

Trusted by Fortune 500 companies, leading publishers, universities, and training organisations worldwide.

ONE PARTNER FOR MULTIPLE WAYS TO BUILD CAPABILITY

Our learning and technology capabilities support organisations across the learning lifecycle.

CareerSPARC

An AI-powered platform that connects skills, hiring, adaptive learning, interviews and training simulations across one unified platform.

enabled

A learning experience platform designed to deliver personalised, engaging and measurable organisational learning.

Assessment and Proctoring

A comprehensive assessment and proctoring platform for secure test creation, delivery, remote monitoring, evaluation and performance analytics.

OpenPage

A digital publishing platform for creating interactive learning content, with AI personalisation and analytics.

ABOUT EXCELSOFT TECHNOLOGIES

Incorporated in 2000, Excelsoft Technologies delivers innovative learning, content, and assessment solutions that help organisations create engaging, scalable, and measurable learning experiences.
